TRADITIONAL  
Mahogany / Natural

## *Build with Integrity*

Every door we make is carefully  
designed, assembled and inspected by  
skilled craftsmen who hold  
the highest standard of excellence.

*Make an Impact*

The right door creates  
a memorable first impression  
as you enter a room and  
a lasting impact as you leave.

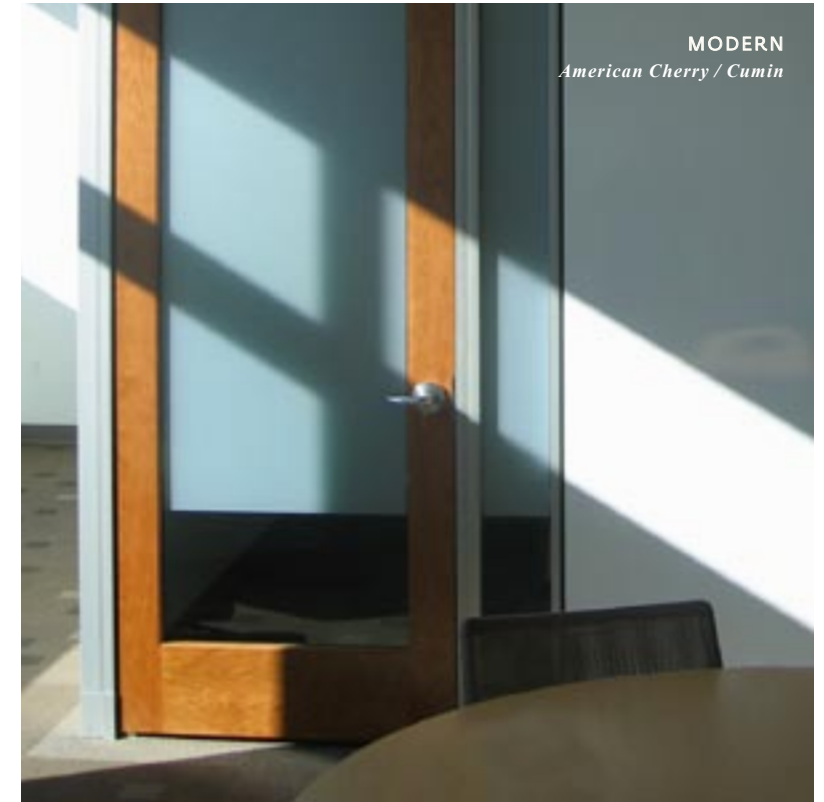

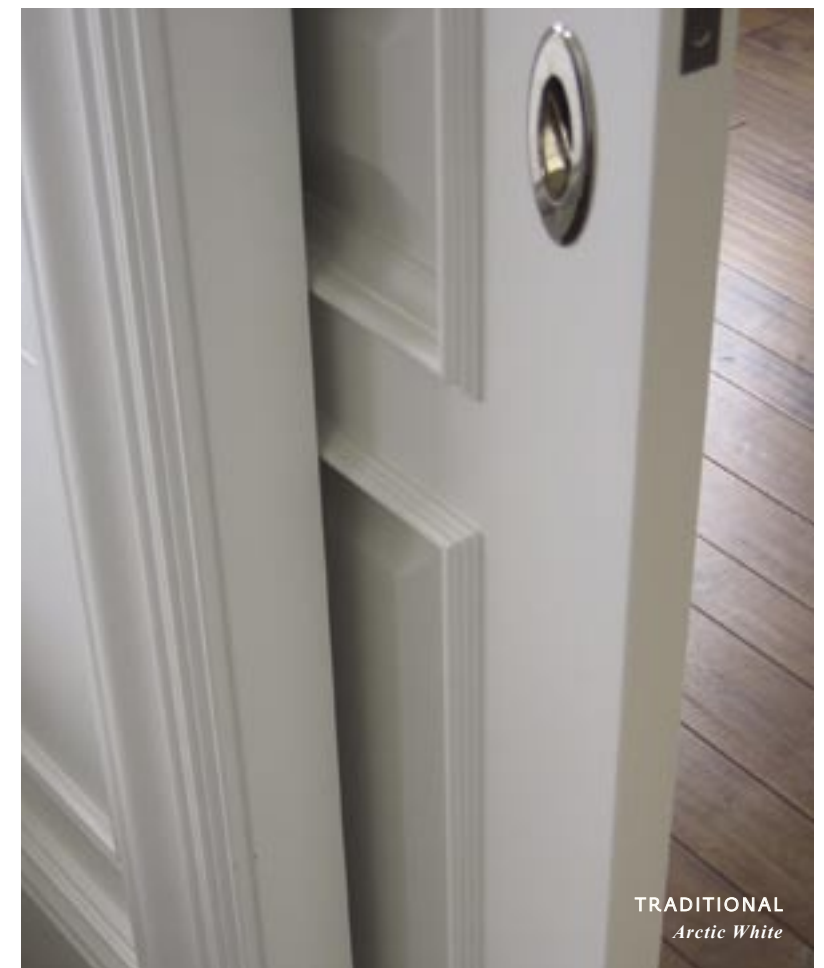

TRADITIONAL  
*Character Walnut / Distressed*

MODERN  
*American Cherry / Cumin*

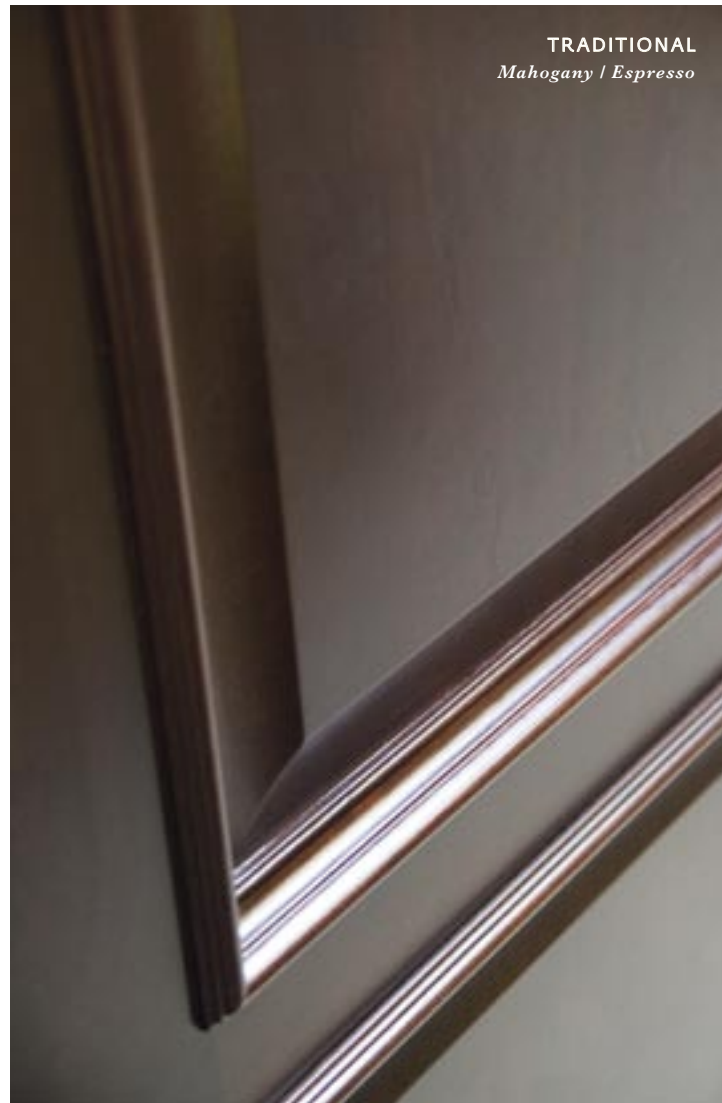

TRADITIONAL  
*Arctic White*

*Enduring  
Craftsmanship*

---

We use the finest woods and  
solid-core construction in all our doors  
to make sure that they're  
as durable as they are beautiful.

TRADITIONAL  
*Mahogany / Espresso*

## *Define & Enhance*

Interior doors define your living space.

Like fine furniture,  
they can dramatically enhance  
the look of your home.

TRADITIONAL  
*Arctic White*

MODERN  
*Teak / Natural*

TRADITIONAL  
*Maple / Bridle Distressed*

## *Doors Make all the Difference*

---

*I*nterior doors play an integral role in establishing the ambiance of a living space. Like fine furniture, they can define and enhance the aesthetic quality of a home. The right door creates a positive first impression as you approach and enter a room, and makes a lasting impact as you leave.

Harborview's interior doors are unrivaled in their performance, value and beauty. Every door is carefully designed with engineered hardwood construction and assembled by highly skilled craftsmen.

Our extensive range of styles, wood species, configurations and finishing options provides nearly limitless potential for artistic expression and practical functionality. Our panel doors provide a high level of sound dampening, while our glass and louvered doors enhance light transmission and air flow.

We are renowned for our ability to create hand-distressed rustic finishes, as well as flawlessly smooth formal finishes. And with our own manufacturing facility, we are equipped to offer custom options for ultimate design flexibility.

Personal service is a cornerstone of our business model, and we consistently deliver on specification, on time and within budget.

TRADITIONAL  
*White Oak / Roast*

TRADITIONAL  
*Mahogany / Mocha*

### *Traditional*

Our Traditional line of doors is reminiscent of European and Classical architectural styles, crafted with raised panels and a variety of molding profiles. Their graceful symmetry, sophistication and time-honored appeal integrates perfectly with architectural sensibilities of the 18<sup>th</sup> and 19<sup>th</sup> centuries.

### *Craftsman*

Our Craftsman doors pay homage to the design styles of Frank Lloyd Wright and Greene & Greene, with flat, recessed panels and crisp, clean lines. Simplicity and natural beauty are the hallmarks of this range of understated doors, which showcase our mastery of fine woodworking and finishing.

### *Country*

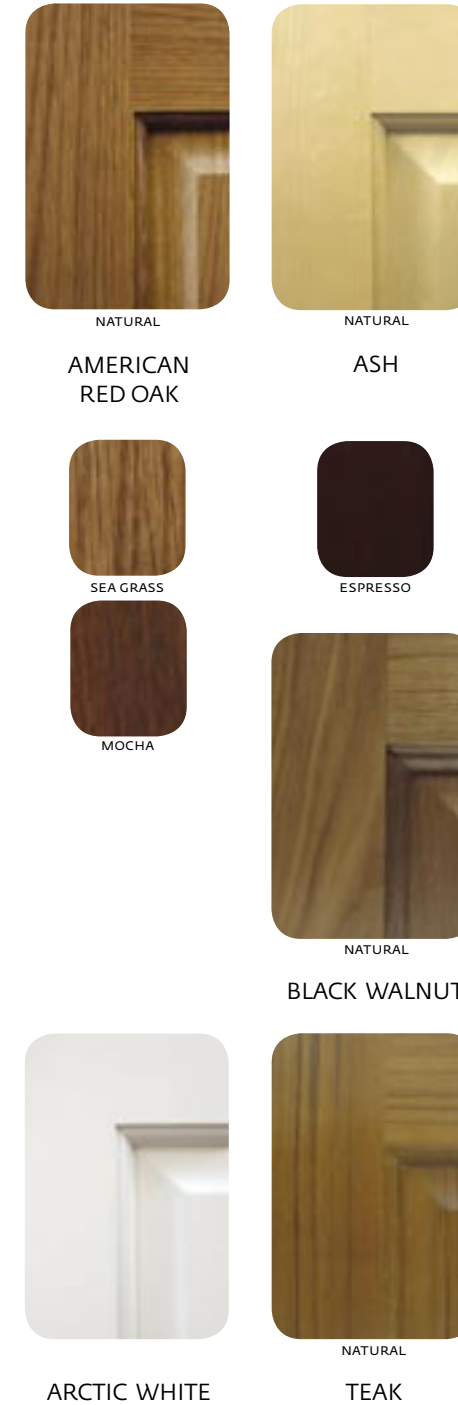

Our Country door collection incorporates design elements of classic country retreats, from Tuscany and Provence, to the lake regions of North America. For old-world charm, choose our plank-style door with pillow-edge panels and a distressed finish. Or select our recessed beadboard panels in a paint-ready primed finish for a cozy cottage look.

### *Modern*

Our Modern door collection is inspired by the works of mid-20th century architects, Alvar Alto and Louis Kahn, with minimalist designs and straightforward functionality. Flat panel frames showcase the natural beauty of our hand-finished wood, while glass inserts lend an open, airy look enhanced with natural light.

# Woods & Finishes

We offer a wide variety of wood species, in natural, stained or primed finishes to suit your personal taste and interior décor. We employ environmentally responsible manufacturing practices and only use wood from sustainably managed forests.

## Door Selection in Four Easy Steps

### 1. PICK YOUR DOOR STYLE

Choose among our four basic styles: Traditional, Craftsman, Country or Modern. We also offer a wide variety of custom design options to enable maximum flexibility and creativity.

### 2. SELECT A WOOD SPECIES

Our wide range of wood species are carefully selected for their unique texture, grain and color. Subtle variations inherent in each piece add to its natural beauty.

### 3. CHOOSE A FINISH

Our color palette of more than 30 finishes is carefully selected to complement the latest design trends. Our hand-distressed finishes provide an old-world patina, while our mirror-smooth finishes impart a more formal look.

### 4. CREATE A DOOR SCHEDULE

Our experienced sales consultants will help you build a complete door schedule for your project. They will provide a personal point of contact to ensure complete satisfaction of both products and delivery.

## *Why Harborview?*

Harborview Products is a pioneer in the evolution of high-end product design and manufacturing. We offer:

- A broad range of architectural styles.
- A wide variety of wood species.
- Cope, stick and dowel or morise-and-tenon joinery.
- Hand-applied, furniture-grade finishes.
- Precision-dried, engineered wood construction.
- Superior manufacturing, construction and quality control.

We are ISO-9001 certified.

- Custom sizes, colors and design options.
- A wide range of door heights: from 3' to 9'.
- A wide range of door widths: from 1' to 3'6".
- Three door thickness options: 1 3/8", 1 3/4", 2 1/4".
- A five-year limited warranty.

## *Hand-Finished Surfaces*

Because we hand-finish every door, jamb and trim piece, we can create or match whatever look you desire—from rustic and distressed to formal and mirror-smooth. We offer two different types of distress-level finishes: Tuscan and European. Our Tuscan finish is textured for an old-world finish, with a hewn wave appearance accented with random chatter impressions. Our European finish features aged rolled edges and light character marks. Both show occasional scratches, worm holes, nicks and gouges. A contrasting, hand-applied stain accentuates the natural beauty of the textured markings. Random broken edges along the stiles and rails are sanded for contrast.

## *Hardware*

Stainless-steel, ball-bearing hardware is available in four finishes:

- Bright brass
- Antique brass
- Satin-nickel
- Oil-rubbed bronze
